WANTED, an EXPERIENCED PLATELAYING INSPECTOR. Salary to commence at Rs. 150 a month. Also SUB-INSPECT

COMMERCIAL INTELLIGENCE.

WEDNESDAY EVENING, MARCH 31, 1880.

THE Home markets opened very quietly after the holidays, but little change is reported in the value of any of the leading industries.

The London telegrams quote an advance of ⅛ in Consols which are now at 98 ⅛, but French Rentes have fallen to Fcs. 118, a decline of ⅛. Indian Government Securities are unchanged at 79 for Fours and 85 for Fours-and-a-half per cent. In the General Produce markets there is no change in either Coffee or Cocoanut Oil. Wheat is 6d. to 1s.6d. per quarter lower all round. Seeds are steady, and Linseed is 1s. per quarter higher.

Telegrams from Manchester report the market for Piece Goods quiet but steady at last quotations.

In Liverpool the Cotton market yesterday closed quiet with sales of 8,000 bales, of which only 600 bales were Surats. Mid. Uplands was quoted at 7.5-16d. per lb. or a decline of 1-16th on the last quotation, but Indian Cotton on the spot was unchanged in value. To arrive "Good" M. G. Broach with the "Good" clause, March-April shipment, via Cape, is quoted at 6 9-16d. per lb. The visible supply of Cotton for Europe compares with the past two seasons as follows :—

	1880.	1879.	1878.
Total supply of all kinds.	2,640,000	2,370,750	2,725 980
" " " Surats	278,000	249,630	311,020

The New York telegrams of yesterday's date report a decline of ⅛ in Mid. Uplands, which is now quoted at 13 cents per lb., and Futures for June shipment have declined from 13-25 to 13-12 cents per lb. The receipts at the U. S. ports to date compare with the past two seasons as follows, viz. :—

	1880.	1879.	1878
Two days' Receipts	7,000	12,000	16,000
Three days' Receipts	19,000	21,000	24,000
Total since 1st Sept.....	4,455,600	4,126,000	3,899,000

Bar Silver in London yesterday was quoted at 52½d. per oz. or ½d. per oz. lower than it was before the holidays.

EXCHANGE is 1-32d. per rupee lower here to-day and weaker in Calcutta, but business (as usual on Council Draft day) has been inactive. It is generally expected that Council Drafts will realize about the same rates as last week, viz., 1s. 8d. to 1s. 8 1-16d. per Rupee. The decline in the value of Silver at Home is probably only attributable to the same cause as the dulness in Exchange here, as it usually collapses before the Bills are allotted, and recovers immediately afterwards. The dull state of the Cotton market in America and Europe is, doubtless, depressing Exchange, but the influence can only be temporary, as exports hence during April must necessarily be heavy.

There has been no enquiry here to-day for Bank Bills, but Banks are willing to buy for April and May at the same rates as for ready Bills which are as follows :—

Bank Bills, on demand	1s. 8 3.32d.	per Rupee
Do. 3 months' sight. is. 8 7 32d.		"
Credits 3 " " ... 1s 8¾d.		"
Documents 3 " " ... 1s 8 7-16d.		"
France 3 " " 2.15		"

On Calcutta rates are unchanged at 100 for demand and 99¼ f or 60 days' sight drafts.

GOVERNMENT PAPER.—The market continue very quiet at Rs. 94½ for Fours and 101¾ to Rs. 102 for Fours-and-a-half per cent.

SHARES.—The market is quiet and the reported transactions have been on a very small scale. In Press Companies Mofussils have advanced Rs. 5 per share. In Spinning and Weaving Mills Dhurumseys are up to Rs. 255 and Manockjee Petits and Orientals have advanced Rs. 5 and Rs. 10 per share respectively. In Land Companies, Colabas at Rs. 5 per share lower. The telegrams from London report a decline of £2 in Oriental Bank shares, the quo ation now being £21 10s. per share.

COTTON.—Business has been very quiet, indeed, here to-day. Purchasers for March shipment are at an end, and while depressing accounts from Home and large arrivals here, sellers have been willing to accept Rs.2 to Rs. 3 per candy without attracting buyers. The arrivals from up-country yesterday amounted to 13 364 bales, making a total for four days of 40·187 bales. We quote :—

Good M. G. Broach, Ready.....	Rs. 243	per candy	FP.
" " May delvy.....	" 242	"	"
" Dholleras, Ready	" 233	"	"
" " May delvy	" 132	"	"
Good Comrawuttees, Ready	" 233	"	"

LINSEED.—A fair business is passing at Rs. 6-2 to Rs. 6-3 per. cwt. Arrivals continue on a very liberal scale—Rapeseed is still neglected. In Gingelly no sales are reported at Rs. 38 to Rs. 41 per candy. Wheat is quiet at Rs. 33 for White and Rs. 31 per candy for Red.

FREIGHTS.—The market is quiet. For early April shipment to Liverpool *via* Canal 45s. per ton is the rate, but for later on tonnage is procurable at 40 and for May at 38s. 9d. per ton. For sailing tonnage there is some enquiry for ready shipment at 40s. to 42s. 6d. per ton. Continental rates are unchanged.

PIECE GOODS.—Less favourable accounts from Liverpool and Manchester have had a quieting effect on this market, and little disposition has been shown by dealers to operate again during the day.

COPPER.—Is again lower, the bazar rate for Braziers having fallen to Rs. 43-8 per cwt.

MESSRS. C. MARCKS & CO., OF HUMMUM STREET, BOMBAY, AND EAST STREET, POONA,

HAVE the pleasure of announcing that MR. A. MENIST, Oculist's Optician, of Amsterdam and London, has APPOINTED them AGENTS for the SALE of his CELEBRATED PEBBLE SPECTACLES, &c., &c.

The reason they have for accepting the Agency is as follows :—

Having tried to procure, regardless of expense, in all the CHIEF TOWNS OF ENGLAND AND ALL LARGE CITIES, Pebbles and Frames equal to those produced by MR. MENIST, AND HAVE TOTALLY FAILED TO APPROACH THEM.

One of the chief essentials in good Spectacles is to place the Pebbles before the eyes in a proper position and at a proper distance according to the particular defect of sight being treated Ill-made and loosely jointed frames, by causing a displacement of the Pebbles, entirely alter their focal power, and so injure the eyes, for this reason Mr. Menist makes his frames of Gold and Silver only, which have been found by experience the best adapted metals for the purpose, possessing the necessary temper, without being liable to oxydise in use. Steel Frames he does not make, considering that they are not calculated to do justice to his Pebbles, and his object being to secure, as nearly as possible, perfection, not cheapness, though in a climate like India, it is doubtful if there would be any economy in Steel, as it corrodes so quickly and has to be renewed so often, to say nothing of the discomfort and injury to the sight. Aluminium cannot be used, because it stains he skin by contact, leaving a black mark that will not wash out.

His Non-Pressure Eye-glasses are so well made that you may twist the Spring in any direction without breaking it, neither is there the slightest pressure when wearing, nor the least mark remaining when removed.

His 12-LENSE DUCHESSE, all in Aluminium, are as powerful as Field-Glasses and are all Achromatic.

His Field, Marine, and Opera-Glasses may be used for hours without causing the eye to ache.

Messrs. M. and Co. have made arrangement to receive their patients in a PRIVATE ROOM, it being hardly possible to test and suit the eye sight without such convenience. Mr. Menist has left them instruments, which enables them to test each eye separately, it being frequently the case that one eye requires a different accommodation to the other, as well in magnifying as diminishing powers. Messrs. M. and Co. have received valuable information from Mr. Menist, by which to suit the eyesight.

Pamphlets can be had on application.

DETAILS OF THE ATTACK ON FORT BATTYE.

ALLAHABAD, MARCH 31.

JALLALABAD, March 29.—Fort Battye, the scene of the recent attack, was visited yesterday by General Bright and Mr. Tucker, Political Officer. Colonel Blenkinsop, 14th M. N. I., commanding Fort Battye, reports that a rush of the enemy was made with great determination. The garrison consisting of 100 of the 4th M. N. I., and 40 of the 4th B. C. had been reinforced by a detachment 150 P. N. I. passing through under command of Lieut. Angelo. The attack was delivered about 11-30 p.m. The enemy creeping up the ravine, which adjoins the fort, made a sudden rush and succeeded in gaining the shelter of the parapet of the fort, over which they kept up a heavy fire, but were eventually driven back by the garrison. A portion of the enemy succeeded in getting into the transport enclosure and there killed several sepoys and camp followers.

It was in crossing the wall between the fort and the transport enclosure that Lieut. Angelo was shot dead through the lower part of the head. Our casualities were 27 in all, 10 men were killed, many had sword cut wounds, the remainder bullet wounds. The tribes concerned in the raid are said to be Mandizai, Shinwaris, and Wazir-Khugianis belonging to the villages of Deh Baba and Gurgurra, Pactur, Ahmedkhel, Perakhel, also Moora.

Much excitement appears to prevail amongst all the tribes adjoining the lines of communication.

PRECAUTIONARY MEASURES.

Strict orders have been issued relative to escorts and officers' followers travelling between stations. The movements of Safis at Sei Baba are not known. Colonel Arbuthnot proceeded there with reference to them.

MILITARY MOVEMENTS.

General Hill left Jallalabad this morning for Safed Sung. General Roberts arrived here to-day *en route* for Kabul. An additional force will probably be sent out from Jallalabad to adjust matters with Moghul Khan Goshta, should he refuse to come to terms, joining the force at present out under command of Colonel Hodding.

Arrangements have been made for crossing the Kabul river on rafts.

MURDER OF LIEUT. THURLOW.

KABUL, March 28.—Musullah Khan has sent to Colonel Acton at Pezwan, saying he has 4,000 men collected at Engami, and, if ordered, will capture the murderers of Lieutenant Thurlow.

A TRAGEDY AT BASAWAL.

PESHAWAR, MARCH 28.

A. Rourke, clerk field commissariat office, Basawal, shot his wife dead to-day, four miles out of station at Budanai bridge.

JUDICIAL APPOINTMENT.

Mr. Barclay, officiating Commissioner, Lahore, succeeds Mr. Justice Smyth in the Chief Court of the Punjab, who is proceeding on furlough. Colonel Johnston succeeds Mr. Barclay.

Major Ommaney is appointed Commissioner of Derajat, vice Colonel Monro.

(FROM THE PRESS COMMISSIONER.)

THE ATTACK ON FORT BATTYE.

CALCUTTA, MARCH 31.

The loss of the enemy in the attack on Fort Battye is reported to be forty killed and missing. Both the Kharbun and Wazie sections of Khugianis were implicated. Moghal Khan and Sadik Khan evacuated Goshta upon the arrival of our troops at Lachipur on the other side of the river opposite Goshta. Goshta is now in possession of the Governor of Jallalabad.

SIR DONALD STEWART.

Sir Donald Stewart and the head-quarters of the Bengal Division left Kandahar on the 30th for Khelat-i-Ghilzai.

CAPTAIN SHOWERS' REMAINS.

Captain Showers' remains were brought in to Quetta on the 29th.

The Frontier and Baluch levies brought in two wounded men—one severely and the other dangerously wounded. In consequence of the murder of Captain Showers a detachment of troops have been moved up to Gwal to act with Sir R. Sandeman.

ATTACK ON A RAILWAY SURVEY PARTY.

On the morning of the 28th the camp of Lieutenant Fuller, of the Railway Survey, was attacked beyond Gwal, in which two camp followers were killed and a sergeant and two sepoys wounded. Lieutenant Fuller fell back on Major Macarthy's camp, three miles from Gwal, which has been reinforced by the wings of the 10th and 16th Native Infantry having rendezvoused there.

THE Rev. C. Walford, Senior Chaplain on the Bombay establishment, and recently posted at Belgaum, is one of the passengers by to-day's steamer for Italy. We regret to know that continued ill-health throughout an anxious service necessitates a temporary removal, and probably a premature retirement, from India. All who have been in contact with Mr. Walford—and these are many—can testify to the courteous zeal, conscientiousness, and ability, with which he has entered into the varied interests of the many stations in which he has resided. Not content with the ordinary duties of an English clergyman—sadly curtailed, alas, in most Indian stations, Mr. Walford has shown a catholic spirit in associating himself with every literary or scholastic endeavour which might tend to the elevation of the local society, whether native or European. We remember how several years ago, when stationed at Rajkot, he took a most kind and active interest in the Kathywar College, where he will long be remembered with gratitude by the young student chiefs. More recently the soldiers of Belgaum, the Temperance Society, and the children of the schools have learnt the value of Mr. Walford's untiring efforts on their behalf. We cannot forget these things when an old friend and helper is leaving our shores, with broken health and broken hope, regretting that the main labours of life have not come to their full end. At such a time it may be some comfort to Mr. and Mrs. Walford to know that the days which they have spent in India have been sufficient to endear them for ever to the hearts of many Indian friends.

AT the adjourned enquiry into the circumstances attending the death of the Chevalier Grondona yesterday afternoon, before the Coroner, two police officers first gave some formal evidence to prove the phials, prescriptions and day book, &c., which had been put in, and Dr. Loriola was then cross-examined at considerable length by Mr. Gill, who had not finished with this witness when the enquiry was again adjourned.

IT seems the Chinese Mandarins are extremely angry with their late Envoy to St. Petersburg for having entered into an arrangement about the retrocession of Kuldja which they consider gave Russia far too favourable terms. The latest intelligence on the subject is to the effect that the maladroit Ambassador will be decapitated as soon as he reaches Pekin.

THE appointment of Mr. Gibbs, of the Bombay Civil Service, to succeed Sir Alexander Arbuthnot in the Viceroy's Executive Council, gives dissatisfaction to the *Englishman*. "The practice," it says, "which seems to guide selection for these appointments—namely, that of filling either of the two civilian seats in the Viceroy's Council, when it becomes vacant, by alternate selections from Bombay and Madras—a practice which, by the way, has, it seems, only grown into existence in recent years, and which obviously results in the exclusion of a large body of Civilians of high standing from the scope of selection—has apparently been strictly adhered to in this instance. Bombay all along expected to fill the vacancy caused by Sir Alexander Arbuthnot's retirement, and Bombay has not been disappointed." Amongst the names mentioned in connection with the appointment whose claims, continues that journal, were of a high order, and from amongst whom it was pretty confidently anticipated that a selection would be made, are those of Sir Ashley Eden, Sir Stuart Bayley, M. R. B. Chapman, Mr. Maxwell Melvill, Mr. T. C. Hope, and others.

A *Bombay Government Gazette Extraordinary* issued yesterday contains the following:—With reference to section 9 of the Bombay Port Trust Act, 1879, the Hon. the Governor in Council is pleased to publish the return, received from the Secretary of the Bombay Chamber of Commerce, of persons elected by the Chamber in accordance with the provisions of the Bombay Port Trust Act, 1879, to be members of the Board of Trustees of the Port of Bombay in place of the elective Trustees, who retire on the 31st of March 1880. Persons elected:—The Hon. M. Mowat, of the firm of Messrs. Ritchie, Steuart and Co., James N. Graham, Esq., of the firm of Messrs. W. Jand A. Graham and Co.; S. D. Sassoon, Esq., of the firm of Messrs. David Sassoon and Co.; date March 9th 1880. The Hon. the Governor in Council is also pleased, under the said section, to re-appoint the following gentlemen members of the Board of Trustees of the Port of Bombay:—Sorabjee Framjee Patell, Esq., Jairaz Peerbhoy, Esq., Vurjeevundass Madhowdass, Esq.

ACCORDING to present arrangements, which are, however, still liable to alteration, His Excellency the Viceroy will stay at Benares from the 6th to the 8th, and will then go on to Umballa where he will again pause in his journey for a few days, reaching Simla about the 15th or 16th.

A CALCUTTA contemporary chuckles over the announcement that "the bigwigs of Bombay will be unable to get away to the hills so early as usual this season, as they are to wait in Bombay till the new Governor arrives, which will not be till the end of April." It adds that it is doubtful whether Lady Fergusson will come out with the new Governor.

THE Port Commissioners have recommended to the Government of Bengal an increase of Rs. 250 to the salary of the present Vice-Chairman of the Commissioners, and his exemption from the payment of his contribution towards pension. This will make a total of Rs. 2,950 per mensem as that officer's salary. The members of the Port Trust are said to have also augmented the pay of their Secretary from Rs. 1,000 to Rs. 1 200 per mensem, commencing from this month.

COLONEL W. S. A. LOCKHART has submitted a scheme for raising a Kuzzilbash and Hazarah contingent to be called the Kabul Guide Corps.

THE *Army and Navy Gazette* takes one of our Calcutta contemporaries to task thus:—An offensive paragraph in the *Statesman* attributes to the Private Secretary of the Viceroy a course of proceeding of which that officer is incapable. It imputes to him the exercise of undue pressure on Sir F. Haines to induce him to retire, and speaks of him as "representing the Wolseley clique." Surely that is most unbecoming and discreditable language to use in reference to an honourable man and a distinguished officer, on the part of a respectable journal?

THE *Pioneer's* Bushire correspondent estimates that in the last season 7,000 chests of opium have been embarked from the Gulf ports for China and London, and states that the manufacture of opium in Sheraz, Yezd and Ispahan has steadily increased year by year, great care being now taken to render the quality as pure as possible. During the next season, May 1880 to April 1881, it is expected 10,000 chests will be forthcoming. A wealthy Bushire merchant has it appears, in contemplation a scheme for running steam vessels direct between the Persian Gulf and the free ports of China, principally for opium traffic.

THE directors of the Bank of Bengal, at their meeting on Thursday last, made no alteration in their rates of interest or discount.

THE appointment of Mr. G. M. Goodricke, Assistant Collector of Customs, to succeed Mr. Mackenzie as Collector of Calcutta, has been made and the former has commenced to take over charge of his duties.

AN English military journal states that the applications for the aides-de-camp and other posts at the disposal of the new Governor of Bombay have been very numerous; but the paper believes none of the appointments are now vacant.

IT is, the *Englishman* believes, not unlikely that Mr. Whitley Stokes may obtain an extension of his present three months' leave on his arrival in England. In that case it will be necessary to appoint an officiating legal member of Council.

OWING to the great heat at Umballa, Lady Lytton and her family will leave that station for Simla on the 31st instant.

MR. HENRY FAWCETT, M. P., has just republished, in book form, three essays on Indian Finance. Feeling the desirability, he says, that the discussion of Indian questions should be free from all party bias, he disclaims the influence of political partisanship for what he has written. He brings many and reiterated charges of reckless expenditure with a dead level of censure to all administrations for the past 20 years during which period, he asserts, the indebtedness of India has gone on increasing till it is now exactly doubled. Meanwhile, the revenue is inelastic, and for a great length of time has been comparatively stationary. To avoid additional taxation, in new and probably exasperating forms, some fundamental change, involving a rigorous retrenchment must, argues Mr. Fawcett, be promptly introduced. Mr. Fawcett expresses an opinion that the Government, should it courageously pursue them, would have a right to expect generous and cordial support from every one interested in the future of India.

THE *Daily News* publishes a letter from its special correspondent in Central Asia, in which, referring to a report that the Shah had forbidden his subjects to supply anything for the use of the Russians, the correspondent says that these prohibitory orders soon became a dead letter, and that for the past three or four months supplies of every kind have been passing across the frontier and along the coast. The Russian commissariat had been very active at Tchiki-lar, several large steamers having arrived laden with provisions. General Muravieff's cavalry escort surprised and defeated 100 Tekkes near Dusullum, killing thirty. Nine thousand Tekkes are centrated at Kizil Arvat.

THE Loochoo difficulty between China and Japan continues unsettled. It is expected that foreign mediation in the matter will be accepted.

IN an article on the Vernacular Press the leading English journal says it is difficult to deal gravely with the rubbish which Indian school boys contrive to get into print, and which Indian readers submissively accept as literal truth and wisdom. Treasonable much of it may have been in a certain sense, but it was hardly the product of any deep-rooted treasonable designs, nor did it cause any danger among a passive people whose convictions of being wronged by their rulers would never, in the most extreme case, have led them to make any personal effort to right themselves. But we may find good reasons why the native Press of India could not have been left alone with safety. Nonsense which was harmless in Bengal would cease to be harmless when it was read among the martial races to the North-West. We have not in India to deal with a country which has been left to itself to learn its own lessons and to shape its own destinies. The influence of England has been very great, and it has necessarily operated in a very unequal manner. The growth of India has been thus one-sided. Education, like some other blessings, has been carried beyond the natural demands of the country, and more men have been taught to read than have been gifted with the power of thinking and of judging.

SIR HENRY LAYARD has informed the Porte that the Great Powers have resolved to appoint an International Commission to discuss the points in dispute between Turkey and Greece, on the basis of the 13th Protocol of the Treaty of Berlin. The new line of frontier determined upon will be communicated by the Powers collectively to the Turkish and Hellenic Governments.

LORD BLANTYRE, in a letter addressed to the *Daily Telegraph*, advocates the advance of our armies in Afghanistan "with the least possible delay," from Kandahar to Herat, and from Kabul to Balkh, and again urges upon the country the necessity for at once assuring the future independence of the Turkomans.

AFTER a stout battle in a debate which saw M. Buffet, M. Jules Simon, and M. de Gavardie engaged side by side, the French Senate has expunged Clause 7 from M. Jules Ferry's Education Bill by a majority of nine-teen; the numbers being 148 to 129. In the debate it was pointed out that among the advocates of Clause 7 were several distinguished pupils of Jesuit schools, and it was asked, were the views they now held the fruit of Jesuit teaching? On the other hand, there is no doubt that, in all time, these powerful ecclesiastics have held a very peculiar position, and have been frequently too much, not merely for the patience of Radicals, but of Kings and Popes. Another characteristic of the combat is that the advocates of every regime more or less opposed to liberty have joined to reject Clause 7 in her name. It now remains to be seen what effect the Senate's vote will have on the Chamber, and Europe will watch with some interest how the French behave in presence of what is an ordinary incident in constitutionally-governed countries. The Senate has exercised its right, and, doubtless, the composite reactionary parties so long in the shade will derive great consolation from the defeat they have been able to inflict upon their triumphant opponents.

AT Rome on March 6th, during the artillery experiments on board the Duilio, one of the guns burst. The accident happened after 25 shots had been fired. The inner steel bore was shattered. Several of the crew were injured by the explosion of gas, which thrust them against the sides of the turret. The latter was slightly damaged, but no injury was done to the machinery or any other part of the vessel, and the artillery trials were resumed. In all ten persons were injured, but only slightly. Among them is Mr. Atkinson, the representative of the firm of Messrs. Armstrong.

THE Agincourt's steam launch going to board the mail steamer Minho, for letters, got across her bows near Belem, and capsized. The launch sunk. Two men were drowned, a quartermaster, and a sticker named Martell.

THE correspondent of the *Daily News*, writing from Rome, under date 8th March, says the hero of the day in St. Thomas Aquina, in commemoration of whose death, 606 years ago, the clerical journals appear in variegated borders, with Latin poems and epigraphs and specimens of the saint's Lenten preaching. Cardinal Parocchi has presided over a crowded meeting of ecclesiastics, Italian and foreign, of whom some chosen orators like Talamo, Cornoldi, and Gaitmberti discoursed in Italian, French, Spanish, and Latin, on the Angelic Doctor. Their prolusions were admirable in style and elocution, less so in knowledge and ratiocinative force, being echoes merely of Leo XIII's encyclical. Aristotle had spoken the last word on scientific method. Aquinas had enobled and perfected Aristoteleianism by religion, and the merits proceeding from both culminated in the reigning Pontiff. Such was the argument enforced with wearisome iteration by the orators who had only a sneer for Bacon and the whole system of inductive research.

THE Bey of Tunis has informed the Porte that the Consul of France has asked for a concession for the commercial port of Goulette, and has sent for a body of French engineers. The Bey is not disposed to grant the request.

CAPTAIN WEBB has been successful in an attempt to remain afloat in the water for sixty hours. The tank in which this novel swim was tried is at the Royal Aquarium. It is 40ft. long, 20ft. wide; the water in it is 6ft. deep, and was maintained at a temperature varying between 75 and 80 degrees. Captain Webb was allowed rest amounting to half an hour in every twenty-four hours. He varied the monotony of his task by alternately floating and swimming. When the 24th hour had been finished, Webb had not availed himself of the half-hour's rest allowed him under the conditions. After being in the water for nearly thirty-nine hours, he took his first rest. He retired to his room, and was examined by Dr. Bond, of Westminster Hospital, who found the temperature of his body to be 97 deg., and pronounced him in wonderfully good condition, considering the arduous nature of his attempt. Webb passed the remaining time much in the same manner as the earlier hours, floating and swimming alternately.

THE prevalence of small-pox in Paris is causing much alarm, and a proposal has been made in the Municipal Chamber to ensure a prompter burial, in cases of death by that epidemic. The establishment of deadhouses in each quarter, to obviate the danger caused by bodies left in the rooms inhabited by other people, was also advocated. Every precaution is being taken against a further spread of the disease, and vaccination is being largely resorted to.

THE LATE FIRE IN THE KURRAM CAMP.

THE following are the particulars of the disastrous fire that broke out on the 21st in the 13th Bengal Lancers camp, destroying, in less than half an hour, more than half of it. The men of this regiment had adopted the custom of raising a frame-work of wood over their tents, and spreading this with a thatch of long jungle grass. This thatch affords great protection from the sun's rays, and renders the tents (which, without it, would be almost unbearable in the hot weather,) a tolerably comfortable abode. At the time the fire broke out the wind was blowing a perfect gale from the north-east, and the flames, having appeared at the midle of the western end of the camp, swept straight through, completely destroying the whole of the three troops at that end. The *sowars* devoted their attention first to cutting the ropes of their horses to let them loose; but before they could do this, a number had perished, and so rapidly had the flames spread, that the men could not afterwards venture into their tents, and consequently lost all of their own and the Government property in them. The troops in garrison all turned out promptly and rendered what assistance they could; but the damage had been done almost before their arrival, and all that remained was to prevent the fire spreading and help in catching the horses stampeding about. The latter, fortunately, ran loose, so that no one was killed—there were two or three accidents, however one man had his arm broken being thrown down by a runaway horse, and two *sowars* had their hands and faces badly burnt. Twenty-four horses were destroyed by the flames, and forty-five others injured, some of them badly. About 150 *sowars* have lost their carbines, ecoutrements, *tulwars*, uniform, bedding, &c.; in fact, all they possess.

DEATHS IN CALCUTTA.—During the week ended the 20th March, there were 233 deaths registered in Calcutta, giving a death-rate of 27·9 per thousand per annum. In the previous week there were 216 deaths, and the death rate was 27·2 per thousand. There were 8 deaths from small pox, 25 from cholera, 24 from fevers, 18 from tetanus, and 9 from causes not specified. The deaths are thus classified: 5 non-Asiatics, 4 mixed races, 149 Hindus, 79 Muhammadans, and 1 of other races.

BOMBAY.

TO-DAY.

Wilson's Circus, 9 p.m.

Gaiety Theatre, "A Wonderful Woman," 9 p.m.; "The Waterman," 10-30 p.m.

VESSELS ARRIVED.—The following vessel arrived on Tuesday last:—Socotra (s), from Kurrachee.

Yesterday—H M's Doyad (s), from Aden.

VESSELS SAILED.—The following vessel sailed yesterday:—Trafalgar (s), to Liverpool; Pearl (s), Coast and Clutch.

PRINCE'S DOCK.—The S. S. Earl King hauled out of the Prince's Dock yesterday and took up moorings in the harbour.

THE TULSI LAKE.—The height of water in the Tulsi Lake up to 6 a. m. on Sunday, the 28th March, was 25 feet 44 tenths.

A VAGRANT.—James Hogan, a European, was yesterday declared a vagrant by Mr. W. Webb, and was ordered to be sent to the Government Work-house.

THE VEHAR LAKE.—The height of water in the Vehar Lake for the week ending Saturday, 27th March, was 50 feet and 1 tenth. In the corresponding week last year it was 51 feet and 2 tenths.

AN OLD OFFENDER.—Rama Mahadoo, a noted character, was yesterday sentenced by Mr. W. Webb to nine months' rigorous imprisonment for stealing articles of wearing apparel and brass vessels, value Rs. 2, belonging to Ruckmee, woman.

REPUTED THIEVES.—Koostia Govind and two Goanese were yesterday sentenced by Mr. W. Webb to twelve months' rigorous imprisonment each, being reputed thieves and persons of bad livelihood, and failing to find security for their future good conduct.

ACCIDENT.—Essack Elibux accidentally fell off a meat van yesterday morning near the Boree Bunder tramway junction. One of the wheels of the van passed over his left foot severely injuring it. He was at once removed to the Goculdass Tejpal Hospital for medical treatment.

CORPORAL PUNISHMENT.—A Hindu lad, named Bijaee Rowjee, was yesterday convicted by Mr. Nana Morowjee of stealing a silver bangle, value Re. 2, by removing the article from the person of a child, the property of Bhima, woman. He was sentenced to receive six stripes with a cat-o'-nine-tails.

A GAMING-HOUSE-KEEPER PUNISHED.—Yesterday Cursetjee Jamasjee was charged, at the instance of Mr. Inspector Jones, before Mr. C. P. Cooper with keeping a common gaming house at Hamal Gully, and also with being found gaming therein, with ten other persons, with dice and money. He was convicted and fined Rs. 100 or in default one month's rigorous imprisonment.

THE HYDERABAD SPINNING AND WEAVING COMPANY.—An extraordinary general meeting of shareholders of the company was held on Tuesday last at the registered office, Horoby Row, Mr. Dinshaw Manockjee Petit presiding. On the motion of Mr. Jairam Lukhmidas, seconded by Mr. Jeevun Ramjee, the special resolutions adopted at the meeting of the 2nd March, which have been advertised in the newspapers, were confirmed.

CART ACCIDENT.—On Tuesday last a woman, named Cassee, was seriously injured by the negligence of a cart driver, named Bapoo Bagoo, who was driving furiously on the Market Road near the new railway station. The woman's right leg was fractured by being jammed between the cart and a large stone that was lying by the side of that road. She was at once removed to the Goculdass Tejpall Hospital for treatment, and the cart driver was charged yesterday before Mr. Nana Morojee with rash and negligent driving, thereby causing injury to Cassee, woman. The case was postponed for hearing to the 12th inst. pending the recovery of the complainant.

INSOLVENT DEBTORS' COURT.—Mr. Justice Bayley presided at a sitting of the court yesterday and disposed of a number of miscellaneous applications. Mr. Budroodin, instructed by Mr. Turner, applied for an interim order on behalf of Hassum Noor Mahomed. Mr. Jardine, instructed by Messrs. Rimington, Hore, Conroy, and Brown for John Campbell and Co., creditors, opposed the application on the ground of the insolvent's wilfully withholding the production of his account books as well as on other grounds. An entry was produced to show that insolvent had withheld no books, but had sold a large number of old books for some forty years back, which were of no use to him. His Lordship remarked that the hearing of the case would come on in a fortnight, when the suspicious circumstances in the case could be enquired into, and in the meantime granted the insolvent an interim order. It is satisfactory to notice that His Lordship has succeeded in clearing off all arrears, and that opposed cases now come on for hearing shortly after the opposition has been filed.

THE SASSOON SPINNING AND WEAVING COMPANY.

THE seventh ordinary general meeting of shareholders was held yesterday at the company's office, 8, Forbes Street, Mr S D Sassoon, chairman of the board of directors, in the chair. The notice convening the meeting was read, and the directors' report, printed copies of which had been circulated previously, was taken as read. The company had for the year ending the 31st December 1879, made a net profit of Rs 67,271, and after deducting therefrom the loss of last year Rs 22,792, there remained a balance of Rs 44,478, which, the directors expressed a hope in their report, would be considered "satisfactory," as a dividend could not be declared, the directors proposed to appropriate the above amount as follows:—Rs 30,000 to be paid in reduction of loan, Rs 10,000 to be carried to fire insurance fund account, and the balance of Rs. 4,478 to be carried forward.

Mr Martin Wood remarked that the hope expressed in the directors' report that the result of the last year's operations would be considered "satisfactory" clearly did, unfortunately, with the actual absence of a dividend. Mr Wood made several suggestions for the future benefit of the mills, which, the chairman said, would be duly considered by the directors.

Mr. Braganza, a shareholder, suggested that the agents, out of mercy to the shareholders who were to get no dividend, should give up their commission.

The chairman explained that, as long as the present articles of association existed, the directors had no power to withhold from the agents the commission to which they were entitled. It was also explained that the agents received only a small commission on the goods actually sold. Several resolutions were then moved, the report and the audited balance sheet and profit and loss account for the year ending 31st December 1879 were adopted and a provd. In accordance with the recommendation of the directors, it was resolved that Rs. 30,000 out of the net profit of Rs. 44,478 be paid in reduction of loan, that Rs. 10,000 be carried to the Fire Insurance account, and that the balance of Rs. 4,478 be carried forward. Messrs. Edulje Bemonjee Morris and Sorabjee Nowrojee Wadia were re-elected directors, and Messrs. J Bangr Gustadjee and H. R. Cormach were appointed auditors at a remuneration of Rs. 200 each. Thanks were voted to the chairman and the meeting adjourned.

LOSS OF THE TRAVANCORE.

THE Peninsular and Oriental Company's steamer Travancore, with the homeward Indian mail, which left Alexandria on the 5th inst., grounded near Otranto owing to a dense fog. A steamer was sent to her assistance and took off passengers mails, and baggage, and left for Brindisi, were they arrived at 8 a. m. on Tuesday. The mails left for London at 9 a.m. The Travancore is a total wreck, and has settled down aft. The captain and chief officer remain with twenty Brindisi men to save gear and any cargo that can be got at forward.

The Peninsular and Oriental Company have received the following telegram:—

CASTRO (near Otranto), MARCH 11.

"Travancore same position; still blowing strong from north; sea breaking over steamer; impossible to go near; opinion here if wind comes strong from south, south-east, or east she will break up. Diver can work when it is perfectly calm. Wired Venice to send them if considered worth while to break out and save damaged cargo.

THE BOMBAY VOLUNTEER RIFLE ASSOCIATION.

THE shooting for the prizes, with the exception of the Maxwell Cup, is now over. G and H Cies. have fired for the Cup already in Poona, and their scores are 334 and 364 respectively, so that H Co, is ahead by 30 points. C Co. fired at Coorla on Tuesday morning and made 255 only. E and F Cos. fired yesterday morning, B Co. on Thursday, and D. Co. on Friday.

The shooting for the National Rifle Association medal on Tuesday was very good, the following scores being made:—

	200	500	600	Total
Col. Sergt Watkins	38	31	23	82
Vol Warne	26	29	27	81
Sergt Brabyer	26	30	25	80
Lieut Smith	29	28	19	76
Corpe Hall	29	29	17	75
Lieut Peaker	17	27	29	68
		&c.		

So that Watkins won it by one point only. The aggregate scores counting for the B. V. R. Association medal are very close, the scoring high, the three first averaging centres. The number of shots fired being 119, this is first rate shooting, considering the wind which blew during the meeting. We give below several scores besides those down for prizes, as no man is allowed to take more than one prize, and therefore in very many cases members who stand low down will come up for prizes, those above them having already obtained a higher prize. The ticket system worked extremely well, in fact too well for some people, and things were easily detected when any underhand practice was tried on. Every one seemed thoroughly satisfied at the result of the shooting and the veracity of its scores as now published, and the corps may look forward to a thoroughly good and well carried out meeting next year.

We give below the winning scores made during the meeting:—

WAR!!!
WOE WORLD
WOE MEN, WHAT ARE YE, AND OUR BEST DESIGNS
THAT WE MUST WORK BY CRIME TO PUNISH CRIME
AND SLAY AS IF DEATH HAD BUT THIS ONE GATE.
BYRON.

THE COST OF WAR.

"Give me the money that has been spent in war, and I will purchase every foot of land upon the globe; I will clothe every man, woman and child in an attire of which kings and queens would be proud; I will build a school-house one every hill-side and in every valley over the whole earth; I will build an academy in every town, and endow it a college in every state, and will fill it with able professors; I will crown every hill with a place of worship consecrated to the promulgation of the Gospel of peace; I will support in every pulpit an able teacher of righteousness, so that on every Sabbath morning the chime on one hill should answer to the chime on another round the earth's wide circumference, and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven."—RICHARD.

WHAT SAITH THE MORE TERRIBLE THAN WAR?

"I will tell you what is ten times, and ten thousand times, more terrible than war—Outraged Nature. She kills, and kills, and is never tired of killing till she has taught man the terrible lesson he is so slow to learn, that Nature is only conquered by obeying her. . . . Man has his courtesies of War; he spares the woman and the child. But Nature is fierce when she is offended, as she is bounteous and kind when she is obeyed. She spares neither woman nor child. She has no pity; for some fatal but much good purpose, she is not allowed to have any pity. Silently she strikes, the sleeping child with as little remorse as she would strike the strong man—with the musket or the pestilence in his hand. Ah! would to God that some man had the pictorial eloquence to put before the matters of England the mass of preventable suffering, the mass of preventable misery of mind and body which exists in England year after year."—KINGSLEY.

HOW MUCH LONGER MUST THE
CAUSES OF THIS STARTLING
ARRAY OF PREVENTIBLE DEATHS
CONTINUE UNCHECKED?

FOR the MEANS of PREVENTION and for preserving Health, Natural means, see a large Illustrated Sheet, wrapped with each bottle of
ENO'S FRUIT SALT.

HOW to PREVENT DISEASE and PREMATURE DEATH by natural means, use
ENO'S "FRUIT SALT."

WHAT EVERY TRAVELLING TRUNK and HOUSEHOLD in the world ought to contain—
A BOTTLE of ENO'S "FRUIT SALT."
Without such a simple precaution the jeopardy of life is immensely increased.
ENO'S FRUIT SALT.

THE NURSERY.

BRAIN FOOD in CHILDHOOD.

SLEEP.

HEALTH in CHILDHOOD.

FRESH AIR, and
ENO'S FRUIT SALT

PREPARED FROM SOUND RIPE FRUIT.

IMPORTANT to PARENTS.

SHOULD a parent have nothing to bestow on a child but a narrow education, still he will bless you if you form his body to health, and strength, and activity, whether he earns his simple meal by labour at the plough, anvil, or axe. On the contrary, if you neglect his health and strength, and leave him a debilitated wretch, he will curse you, though a millionaire.

ENO'S FRUIT SALT is an INDISPENSABLE REQUISITE in the PRESERVATION of CHILDREN'S HEALTH.

INJUDICIOUS DIET.

IS a gentle LAXATIVE or TONIC it is pleasant to the taste, and much superior to nauseous drugs; it corrects the ill effects of late hours, over-heating, or exhaustion, and is extremely beneficial in any feverishness or heat of the skin. Unlike other saltines, instead of lowering the system, it invigorates it. The FRUIT SALT ought to be kept in every nursery, not only for use as a refreshing, pleasant,

COOLING, REFRESHING, and INVIGORATING BEVERAGE, but also as a convenient and valuable remedial agent. Colds, feverishness, fevers, inflammatory diseases, &c. Many fevers and other inflammatory diseases would be thrown off, or greatly modified, if the FRUIT SALT and a blanket bath were used at the outset.

In disorders of the stomach or of impure blood it is invaluable, for not the least of its recommendations is its resemblance to fruit in the natural way in which it relieves the system of effete matter, which, if retained, poisons the blood. Its advantage over fruit is that it can always be at hand when required: at the same time it is in every respect as harmless as the juices of ripe fruit, from which it has been obtained.

STIMULANTS and insufficient amount of exercise frequently derange the liver. ENO'S FRUIT SALT is peculiarly adapted for any constitutional weakness of the liver. A world of woes is avoided by those who keep and use ENO'S FRUIT SALT."—All our customers for ENO'S FRUIT SALT would not be without it upon any consideration, they having received so much benefit from it."—WOOD BROTHERS, Chemists, Jersey, 1878.

IN ANY EMERGENCY.

IT ought to be kept in every bedroom, in readiness for any emergency, for under any circumstances its use is beneficial, and never can do harm.

"SUCCESS IN LIFE."—A new invention is brought before the public and commands success. A score of *abominable imitations* are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that employed in an original channel could not fail to secure reputation and profit.—*Advast.* CAUTION.—Examine each bottle, and see the capsule is marked "ENO'S FRUIT SALT." Without it you have been imposed on by worthless imitations. Sold by all chemists. Price 2s. 9d. and 4s. 6d. Prepared only at ENO'S FRUIT SALT WORKS, Hatcham, London, S.E., by J. C. ENO'S patent.

We guarantee the above watches to last for 15 years.

INTIMATION.

We have lately added an important branch to our business, viz., manufacturing on our premises gold chains and jewellery of pure Indian gold, by skilled European workmen, therefore giving the fine finish of Western workmanship, better value in gold, and saving the heavy loss by exchange, duty, &c., which have to be charged on articles of this description imported from Europe. Our prices for this description of goods will be found lower than any firm in India.
